

# THE WISEST MEN

## ***Wise Men***

**CHORUS** *We're the wisest men that you'll ever meet,  
Oozing wisdom from our head to our feet.  
There's not a question we can't answer for you  
And lots of lovely ladies say we're handsome too!*

## ***All***

- 1 They're authorities on ancient history  
And know the capital of every country.  
Maths and physics, easy for them,  
They know it all and so much more!

**CHORUS (Wise Men)**

## ***All***

- 2 They are experts on the stars and planets,  
Decipher codes and study soil mechanics.  
Languages are easy for them,  
They know it all and so much more!

## **LAST CHORUS**

## ***All***

*We're the wisest men that you'll ever meet,  
Oozing wisdom from their head to their feet.  
There's not a question they can't answer for you  
And lots of lovely ladies say they're handsome too!*
